Philosophy of Law Joel Feinberg, Jules Coleman, Christopher Kutz

This leading anthology contains essays and cases written by some of the most influential figures in legal philosophy, representing the major theoretical positions in the field. Its primary focus is to relate traditional themes of legal philosophy to the concerns of modern society in a way that invigorates the former and illuminates the latter. This classic text is distinguished by its clarity and accessibility, balance of topics, balance of positions on controversial questions, topical relevance, imaginative use of cases and stories, and the inclusion of only lightly edited or untouched legal classics. This revision is distinguished by its inclusion of new material on law and economics, international law, distributive justice, religion and freedom of expression, feminist legal theory, and critical race theory, as well as a greater emphasis on concrete legal problems.
