The Subconscious Mind - What it is and How To Reprogram it Using Advanced Technologies Faiez Kirsten

This report discusses the nature and biological basis of the subconscious mind and subconscious beliefs. It describes specifically what the subconscious mind is and the power and the control it exerts over our lives. In this report you will also learn about epigenetics which is the study of the control of our DNA by factors outside of the genes themselves. The report lists a number of methods which can be used to reprogram the subconscious mind (which involves installing new beliefs for example) and PART II specifically describes three advanced technologies which have been proven to be highly effective in this regard. The information contained in this report will empower you to take back control from the real controller of your life. It will empower you to put the control of all aspects of your life, including your health and wellness, back into the palms of your own hands, so to speak.
