Trade, Development, and Political Economy in East Asia: Essays in Honour of Hal Hill Budy P. Resosudarmo

This volume is a tribute to Professor Hal Hill, one of the most distinguished and internationally renowned Australian development economists and the single most important Australian figure in the networks that bind the Australian and Southeast Asian economics professions over the past four decades. The volume contains twelve original contributions by distinguished scholars who are at the forefront of their own subject areas. The contributions are thematically arranged into three parts to reflect Professor Hill's wide-ranging research interests: trade policy issues central to the development policy debate, structural change and global economic integration in East Asian economies, and the political economy of development policy.
