## Approaches to Human Geography: Philosophies, Theories, People and Practices

"The book covers some of the (traditionally) most obtuse and difficult-to-grasp philosophical ideas that have influenced geographers/geography. The fact that these are presented in an inclusive and accessible manner is a key strength. Many students have commented that the chapters they have read have encouraged them to read more in this field, which is fantastic from a lecturer's perspective."

- *Richard White, Sheffield Hallam University*

A new edition of the classic Approaches text for students, organised in three sections, which overviews and explains the history and philosophy of Human Geographies in all its applications by those who practise it:

- **Section One – Philosophies:** Positivist Geography / Humanism / Feminist Geographies / Marxisms / Structuration Theory / Human Animal / Realism / Postmodern Geographies/ Poststructuralist Theories / Actor-Network Theory, / Postcolonialism / Geohumanities / Technologies
