If you have ever wanted to believe in God, in the face of so much that would say He doesn't exist, this is the book for you. On the scientific level, The God's Honest Truth is just that, a book of truth, discussing what scientific proof is, as opposed to what is mere science fiction; regarding universal beginnings. It deals with issues of six-day creationism, offers evidence for a worldwide flood, and denounces evolution for what it is. On a theological level, it is a primer for contemporary biblical thinking, teaching believers what the Bible says on the important issues of life. It discusses why evil exists in the face of an all-loving God and whether the fate of sinful man will be perpetual torture in the fires of hell. Lastly, it walks readers through such historical subjects as Christian participation in warfare, slavery, and speaks to the more current issues of abortion and gay rights. Based strictly on biblical doctrines, when rendering decisions, it is meant as a guide through the ever-changing customs and conceived morality of life on planet Earth.
