Sports Injuries in Children and Adolescents: A Case-Based Approach Rosa Monica Rodrigo, Joan C. Vilanova, José Martel

This introduction to sports injuries in children and adolescents is written in a user-friendly format and takes into account the fact that sports injuries in the pediatric population are not an easy topic for non-pediatric orthopedic surgeons, pediatricians, and non-pediatric radiologists. The book is divided into five chapters on musculoskeletal particularities in children, head and spine trauma, muscle strains and avulsion injuries, bone fractures, overuse injuries, and miscellanea. Each of these chapters comprises ten cases, and each case study includes up to four figures, a description of the clinical case, a review of the pathophysiology of the condition described in the case, and a final section on imaging findings. Sports Injuries in Children and Adolescents is a case-based book aimed at pediatricians, pediatric orthopedic surgeons, and radiologists.?
