## Handbook of Reading Research, Volume IV

The *Handbook of Reading Research* is the research *Handbook* for the field. Each volume has come to define the field for the period of time it covers. *Volume IV* follows in this tradition. The editors extensively reviewed the reading research literature since the publication of *Volume III* in 2000, as portrayed in a wide array of research and practitioner-based journals and books, to identify the themes and topics covered. As in previous volumes, the focus is on reading research, rather than a range of literate practices. When taken as a set, the four volumes provide a definitive history of reading research. *Volume IV* brings the field authoritatively and comprehensively up-to-date.
