**Semantics of Specification Languages (SoSL): Proceedings of the International Workshop on Semantics of Specification Languages, Utrecht, The Netherlands, 25 - 27 October 1993 (Workshops in Computing)**

SoSL was the first International Workshop on Semantics of Specification Languages, held from 25-27 October 1993 in Utrecht, the Netherlands. The workshop was organized by the Department of Philosophy of Utrecht University with financial support from the Nationale Faciliteit Informatica of the Nederlandse Organisatie voor Wetenschappelijk Onderzoek (NWO), and under the auspices of the British Computer Society'S specialist group in Formal Aspects of Computing Science (BCS FACS). The concern of the workshop was the semantics of specification languages, and the issues closely related to this area, such as type checking and the justification of proof rules and proof obligations. Its aim was the exchange of problems and ideas in this field of formal methods, and the identification of common programs of work for further investigation. The program of SoSL consisted of 3 invited lectures presenting the developments of the semantics of 3 major specification languages. Furthermore, there were 16 presentations of submitted papers. This volume provides a direct account of the workshop. It contains 3 papers that match the invited lectures and the 16 selected papers. The editors want to thank all those who have contributed to the workshop; the Program Committee and the referees for selecting the contributed papers, the invited speakers for their interesting talks, the Organizing Committee for all their efforts, and of course the participants. We have the feeling that the workshop was worthwhile and should be repeated.

**From reader reviews:**

**Timothy McKinney:**

What do you concentrate on book? It is just for students since they are still students or the idea for all people in the world, the particular best subject for that? Just simply you can be answered for that concern above. Every person has different personality and hobby per other. Don't to be obligated someone or something that they don't want do that. You must know how great along with important the book Semantics of Specification Languages (SoSL): Proceedings of the International Workshop on Semantics of Specification Languages, Utrecht, The Netherlands, 25 - 27 October 1993 (Workshops in Computing). All type of book are you able to see on many sources. You can look for the internet methods or other social media.

**Cindy Johnson:**

In this period globalization it is important to someone to receive information. The information will make anyone to understand the condition of the world. The healthiness of the world makes the information simpler to share. You can find a lot of references to get information example: internet, newspaper, book, and soon. You can see that now, a lot of publisher that will print many kinds of book. Typically the book that recommended to you personally is Semantics of Specification Languages (SoSL): Proceedings of the International Workshop on Semantics of Specification Languages, Utrecht, The Netherlands, 25 - 27 October 1993 (Workshops in Computing) this reserve consist a lot of the information on the condition of this world now. That book was represented so why is the world has grown up. The language styles that writer make usage of to explain it is easy to understand. Typically the writer made some analysis when he makes this book. That's why this book ideal all of you.

**Rhonda Silva:**

This Semantics of Specification Languages (SoSL): Proceedings of the International Workshop on Semantics of Specification Languages, Utrecht, The Netherlands, 25 - 27 October 1993 (Workshops in Computing) is new way for you who has attention to look for some information because it relief your hunger details. Getting deeper you into it getting knowledge more you know otherwise you who still having tiny amount of digest in reading this Semantics of Specification Languages (SoSL): Proceedings of the International Workshop on Semantics of Specification Languages, Utrecht, The Netherlands, 25 - 27 October 1993 (Workshops in Computing) can be the light food for you because the information inside this specific book is easy to get by anyone. These books build itself in the form that is reachable by anyone, yeah I mean in the e-book web form. People who think that in guide form make them feel drowsy even dizzy this reserve is the answer. So there is absolutely no in reading a reserve especially this one. You can find what you are looking for. It should be here for you. So , don't miss this! Just read this e-book type for your better life as well as knowledge.

**Jessica Bradburn:**

As a college student exactly feel bored to reading. If their teacher inquired them to go to the library or even make summary for some publication, they are complained. Just small students that has reading's heart and soul or real their pastime. They just do what the trainer want, like asked to go to the library. They go to right now there but nothing reading significantly. Any students feel that reading through is not important, boring in addition to can't see colorful photos on there. Yeah, it is to be complicated. Book is very important for you. As we know that on this period of time, many ways to get whatever you want. Likewise word says, many ways to reach Chinese's country. Therefore this Semantics of Specification Languages (SoSL): Proceedings of the International Workshop on Semantics of Specification Languages, Utrecht, The Netherlands, 25 - 27 October 1993 (Workshops in Computing) can make you experience more interested to read.
