Simply Genius!: And Other Tales from My Life Ervin Laszlo Ph.D.

An autobiography usually recounts the life of a person who has achieved wide acclaim in one field. But this extraordinary book describes the life of someone who has achieved international acclaim in *three* fields!

Ervin Laszlo was a child prodigy on the piano and grew up to become an internationally celebrated virtuoso. By the time he reached his 40s, however, he had become a famous scientist and philosopher, and had written a dozen books and more than a hundred articles. He also taught at major universities in Europe, the U.S., and the Far East. Shortly thereafter, he gained world renown as a global visionary, heading research programs at the United Nations and founding an international think tank (the Club of Budapest).

But this book is *not* an autobiography in the traditional sense. In Laszlo's own words: "I don't like talking about myself, about what makes me tick and why. Writing about all the things that have happened to me is different. This is storytelling—the telling of a real, lived story: my story, as it unfolded over the years."

Join the author on his remarkable journey from his days as an internationally acclaimed concert pianist . . . to his profoundly personal quest to effect positive global transformation!
