## **What is Medieval History** John H. Arnold

What is it that medieval historians do? And how - and why - do they do it? *What is Medieval History?* provides an accessible, far-ranging and passionate guide to the study of medieval history. The book discusses the creation of the academic field, the nature of the sources, the intellectual tools used by medievalists, and some key areas of thematic importance from the fall of the Roman Empire to the Reformation.

Students, teachers, researchers and interested general readers will find the book an invaluable guide. The author explores his field through numerous fascinating case studies, including a magical plot against a medieval pope, a fourteenth-century insurrection, and the importance of a kiss exchanged between two tenth-century noblemen.

Throughout the book, readers are shown not only what medieval history is, but the cultural and political contexts in which medieval history has been written. And, above all, *What is Medieval History?* demonstrates why the pursuit of medieval history continues to be important to the present and future world.
