Foundations of Intelligent Tutoring Systems (Interacting with Computers Series)

Foundations of Intelligent Tutoring Systems (Interacting with Computers Series)

This collection of essays -- each of which treats an integral aspect of the field -- defines several key concepts and their interrelationships, outlines basic research issues, and discusses near-term applications projects. The book examines three foundations of ITSs in detail -- expert, student diagnostic, and instructional or curricular knowledge -- and describes:

- * How they are embodied in computer-assisted instructional environments
- * How these systems accrue the advantages of advanced computer interface technologies
- * How ITSs will emerge in the real world of complex problem solving
- * How researchers must learn to evaluate the effectiveness and overall quality of these dynamic systems in a world where machine tutoring may one day be taken for granted. Justine Wise Polier (1903-1987) was educated at Bryn Mawr, Radcliffe, and Barnard. She earned her law degree from Yale Law School where she was editor of the Yale Law Journal.

In 1935, she was appointed Justice of the Family Court where she sat for 38 years. Judge Polier took a leave from the bench in 1941 when she was appointed special advisor to Eleanor Roosevelt at the Office of Civilian Defense in Washington. She also served as Chairman of the Committee on Mental Health for New York.

Judge Polier was a founder and president of the Wiltwyck School; vice president of the Citizens Committee for Children of N.Y.; vice president of the American Jewish Congress; Delegate to the White House Conferences on Children and on Education. Judge Polier was a member of the Institute of Judicial Administration, American Bar Association. She was on the editorial board of the International Juridical Association and was awarded the 1964 Isaac Ray Award by the American Psychiatric Association for "contributions to the improvement of the relations of Law and Psychiatry." Following her retirement from the bench, she served as the director of the Juvenile Judge division of the Children's Defense Fund.

During her illustrious career, Judge Polier was the recipient of numerous awards including: the Citation for Distinguished Service to the City of New York, 1973; the Human Services Award from the New York and Bronx Mental Health Association, 1973; the Eleanor Roosevelt Humanitarian Award from the Board of Directors of Wiltwyck School, 1975.

Judge Polier also published numerous reports and several books including: Everyone's Children, Nobody's Child; Back to What Woodshed?; A View from the Bench; and The Rule of Law and the Role of Psychiatry.

From reader reviews:

Dawn Hicks:

The book Foundations of Intelligent Tutoring Systems (Interacting with Computers Series) can give more knowledge and also the precise product information about everything you want. Exactly why must we leave a very important thing like a book Foundations of Intelligent Tutoring Systems (Interacting with Computers Series)? A number of you have a different opinion about reserve. But one aim this book can give many info for us. It is absolutely right. Right now, try to closer together with your book. Knowledge or facts that you take for that, you can give for each other; you can share all of these. Book Foundations of Intelligent Tutoring Systems (Interacting with Computers Series) has simple shape but you know: it has great and massive function for you. You can seem the enormous world by open and read a publication. So it is very wonderful.

Ruth Frye:

This Foundations of Intelligent Tutoring Systems (Interacting with Computers Series) book is absolutely not ordinary book, you have it then the world is in your hands. The benefit you get by reading this book is information inside this publication incredible fresh, you will get facts which is getting deeper an individual read a lot of information you will get. This specific Foundations of Intelligent Tutoring Systems (Interacting with Computers Series) without we comprehend teach the one who looking at it become critical in pondering and analyzing. Don't always be worry Foundations of Intelligent Tutoring Systems (Interacting with Computers Series) can bring if you are and not make your bag space or bookshelves' turn into full because you can have it inside your lovely laptop even cellphone. This Foundations of Intelligent Tutoring Systems (Interacting with Computers Series) having fine arrangement in word and also layout, so you will not really feel uninterested in reading.

Modesto Delarosa:

As people who live in the particular modest era should be up-date about what going on or data even knowledge to make these individuals keep up with the era and that is always change and make progress. Some of you maybe will certainly update themselves by examining books. It is a good choice for you but the problems coming to an individual is you don't know what one you should start with. This Foundations of Intelligent Tutoring Systems (Interacting with Computers Series) is our recommendation to cause you to keep up with the world. Why, as this book serves what you want and wish in this era.

Jonathan Carney:

Do you one of the book lovers? If yes, do you ever feeling doubt when you find yourself in the book store? Make an effort to pick one book that you never know the inside because don't evaluate book by its include may doesn't work at this point is difficult job because you are afraid that the inside maybe not since fantastic as in the outside seem likes. Maybe you answer may be Foundations of Intelligent Tutoring Systems

(Interacting with Computers Series) why because the fantastic cover that make you consider concerning the content will not disappoint an individual. The inside or content will be fantastic as the outside as well as cover. Your reading sixth sense will directly direct you to pick up this book.
